

OVERVIEW OF PIETER BURGER'S STATEMENT

1. Introduction

Pieter Burger's statement will deal with the obligations which were contracted for with the obligors for each of the 5 programmes (submarine, corvette, LIFT, ALFA and LUH), as well as the process which was followed in the execution of the DIP Terms.

2. Defence Industrial Participation

2.1 Construct of DIP Terms – an overview of the provisions contained in the Umbrella Agreement and DIP Terms

2.2 DIP Discharge and Performance – an explanation on how the DIP obligations were to be discharged and performed under the Umbrella Agreement and DIP Terms

2.3 Key Processes – an explanation of the key processes which were put in place for the purposes of ensuring that the Obligors discharged their obligations in terms of the DIP Terms.

3. Examples of DIP Performance and Discharge

This section of Pieter Burger's statement aims to illustrate to the Commission the extent to which the DIP Obligors complied with the DIP Terms in discharging their obligations and how the DIP offsets materialised. This is achieved by, among other things, –

3.1 providing documentation which summarised the DIP performance;

3.2 providing documentation which sets out the performance per obligation; and

3.3 illustrating the impact of DIP on jobs in the defence industry.

4. DIP Requirements

This section of Pieter Burger's statement seeks to highlight the common terms of the DIP Terms which Obligors were required to comply with.
